

Why Get Travel Insurance

There are lots of things that can affect your travel plans and/or your well being; unexpected accidents or illnesses, missed flight connections, lost or stolen luggage.

As we all travel now more than ever before it's important that we ensure that we are prepared for the unexpected and have safe guarded against any unforeseen events.

Having appropriate travel insurance cover can be a great assistance during difficulties whilst travelling. Travel insurance can help you get emergency health or dental cover, protect you against the cost and inconvenience of lost or stolen luggage, and assist you when you need to return home quickly to tend to a loved one in emergency situations.

Your house insurance cannot be relied on to provide travel cover (many provide little or no cover at all whilst travelling abroad) and as a result you can incur great costs if something bad happens.

Travel insurance gives you the peace of mind you need when you are away from home.
